CAREER OBJECTIVE

Motivated and detail-oriented Computer Science graduate aspiring to start a career as a Software Developer. Strong foundation in programming, data structures, databases, and software development lifecycle. Passionate about building scalable applications and contributing to innovative projects in a collaborative team environment.

SKILLS

Programming Languages: Python, Java, JavaScript

Web Development: MongoDB, Express.js, React.js, Node.js), HTML, CSS, Bootstrap

Database Management: MySQL, SQL, MongoDB

Other Skills: Data Analytics, Debugging, Git/GitHub, REST APIs, AWS (recommended)

EDUCATION

B.E. Computer Science and Engineering | CGPA: 8.1

Sri Muthukumaran Institute of Technology (2021 – 2025)

HSC | Percentage: 80%

Bharath Vidhya Mandhir (2020 – 2021)

SSLC | Percentage: 65%

Hebron Matric Higher Secondary School (2018 – 2019)

EXPERIENCE

Frontend Web Development Intern – Empower Guiding Center

- Built and styled responsive web pages using HTML, CSS, JavaScript, Bootstrap, and React.js.
- Improved UI/UX and implemented reusable components for faster development.

Data Analytics Workshop – National Small Industries Corporation (NSIC)

- Gained hands-on exposure to data cleaning, SQL queries, and visualization techniques.
 - Learned practical methods for analyzing real-world datasets and generating insights.
-

PROJECTS

Online Complaint Registration and Management System

- Developed a full-stack web application to register, track, and manage complaints.
- Implemented user authentication, role-based access (admin & users), and status tracking for complaints.
- Designed a responsive UI with Bootstrap and React.js.
- Used MongoDB for database management and Node.js/Express.js for backend services.
- Enhanced complaint resolution efficiency by streamlining the process through automation.

AI Placement Training and Support

- Built a web platform that uses AI-based recommendations to guide students in training and placement preparation.
 - Integrated login authentication system and personalized dashboards for students and admins.
 - Implemented MySQL database for storing training resources and student progress.
 - Designed interactive charts and analytics dashboards to track placement readiness.
 - Helped students access tailored materials, improving preparation effectiveness.
